## Hose Reel c/w Level Wind

FLUID CONTROL

### Weight and dimensions:

Tare weight:	18 608 kg
Overall Height (including level wind):	4 035 mm
Width:	4 450 mm
Length:	4 400 mm
Drum ID:	2 600mm
Drum OD:	3 860 mm
Drum Width:	2 940 mm

### Performance:

Pull Force on drum, inner layer:	5 000 kg
Hydraulic Supply:	80 l/min
Storage Capacity:	1000 m of SoluForce H515 (6ND)

### Hydraulic System:

Drive (Hydraulic):	SAI radial piston motor
Gearbox:	Twin reducing gear with an angel drive
Max. Operating Pressure:	200 bar
Control Mode:	Manual remote-control panel , or local manual control

**Further Information:** Hose reel is supplied with certified lifting yoke / spreader bar

**Classifications:** Machinery Directive 522  
DNV 2.7-1
